

Permitted Mobile Food Vending Commissaries in New York City

You must store your food vending unit at a commissary or depot. Green Carts and units that sell only pre-packaged foods may use an alternative facility approved by the NYC Health Department.

You must clean and service your food vending unit at least once every day. This must be done at the commissary or for Green Carts or units that sell only pre-packaged foods, at another place approved by the NYC Health Department.

You must prepare your food at a commissary using the commissary's food preparation facilities. At your pre-permit inspection you must submit an agreement with a commissary or your request for an alternate approved facility. Visit nyc.gov/health/mobilefood for the forms.
